

VERENA BOGHIU-MENZI

RESUME

The elements of water, fire and light are inspiring her again and again. Strong colors and light effects are moving and fascinating the observer. And that is what she always wanted her paintings to do: to stimulate the lust for life.

Verena Boghiu-Menzi attended the Art College (Textil- und Kunstgewerbeschule) in Zurich, with the renowned artist Johannes Itten.

She showed her oil works at innumerable personal and joint-expositions in Brazil, Germany, USA and Switzerland. Many of them are being held worldwide in private collections. She was awarded with a significant number of gold medals and other prizes for her artistic work.

During different exchange programs with Brazil, Verena exhibited some of her works in Amsterdam at the World Trade Center, in Casablanca, in Rabat, Morocco and in Revin, France. She also exhibited in other major cities of Brazil, in some of the most important museums.
